

"PO TIRIH / DOPO BINARI / AFTER TRACKS"

23.5.2023, Nova Gorica, Majske poljane

SANDBOX a soundwalk on both sides of the railroad tracks

by **Irena Pivka** and **Brane Zorman**

Meditative experience, wakefulness training and encouragement to critically think about our experience and (re)evaluation of the surrounding environment. A walk along the railway tracks leads a viewer, a wanderer and an eavesdropper into a performative space. This sound walk is an event of spatial contrasts and time paradoxes, which takes place on the very edge of the forbidden movement.

18.00 start group 1

19.00 start group 2

Start location: near open-air gym in the park opposite the Nova Gorica train station. Limited places available, please reserve yours at <potirih.pleter.net>!

SUNPOWER TRACKS a sunset programme in sound

at Majske poljane meadow (south of Supernova), where the soundwalk ends...

20.00 **Brane Zorman: *Reclaiming Time – ElektroMagnetikSpektrum***

Reclaiming Time – ElektroMagnetikSpektrum is based on various wide radioband recordings and live inputs from pointing at positions and colour constellations of our and other solar systems, stars, planets. The author sees his position as a spectrum realtime content manipulator. As an EMS curator or even intercepting medium distributor he creates an environment to collect, transform and remodulate electromagnetic information live by using different

software and hardware tools translating them to that very narrow and limited human audible range spectrum.

20.45 Jaka Berger - Brgs: *In_Dependences*

A project about a focussed dialogue with the environment. After years of collaboration with various artists, this time the artist himself seeks to develop a dialogue with nature that contains the dramaturgy and the approach that a musician uses when composing a piece of music.

21.30 Joondroid: *Mandala of Consciousness*

The entire universe is unfolding and collapsing in on itself, a recurring cycle of awareness, a mandala of consciousness.

Snacks and drinks by Faladur

Concept & hosting by pETER Purg (PostMobility, Go!2025)

Fellow travelers:

Irena Pivka is a walking artist who perceives space through walking, storytelling and listening. She is also a producer of the Cona Institute.

Brane Zorman is a Ljubljana-based composer, intermedia, sound, and radio artist, sound manipulator, and producer. His explorations focus on the possible processing, presences, perceptions, placements and reinterpretations of sound in space.

Jaka Berger - Brgs has during the last fifteen years established himself as one of the most active, creative and versatile drummers, composers and improvisers on the Slovenian music scene.

Joondroid presents the realizations of his mind in the form of live electronic musical performances.
